

MAGIC BEANS

Coffee Porter

Legend has it, Smuttlabs head brewer, Charlie traded his black lab, Willie to a mysterious stranger one foggy morning in exchange for a load of magic coffee beans. He then took those beans and brewed a coffee porter which sprouted into a deep, dark, delicious monster we affectionately call **Magic Beans Coffee Porter**. Of course, Willie ran away from the stranger and made his way back to the brewhouse for yum-yum time.

Smuttlabs Magic Beans Coffee Porter employs dark roasted coffee beans giving the beer a rich mouthfeel with subtle notes of chocolate and fruit. The result is a flavor that's pure magic.
